

Ultra-durability that sticks!
Innovative multi-purpose material

bBa Sheets & Films

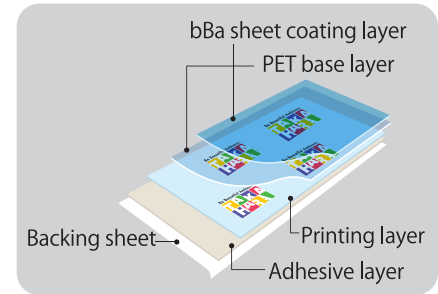

For purposes of **safety**, **aesthetic beauty**, and **5S workplace organization** (sort, set in order, shine standardize and sustain)

Characteristics

Product Structure

Special structure with ultra-durable coating on the surface

Wear-resistant, incombustible, and resistant to chemicals!

bBa Super Line Tape

Resistant to stains and does not leave a mark after removal
Good to use for zoning and indicating routes in factories

RoHs10 acquisition

Application Example

After 3 months use

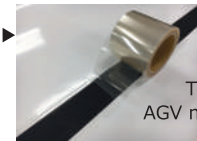

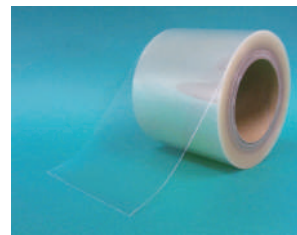

Protects AGV magnetic tapes and prevents skid-marks of tires!

bBa AGV Line Protection Tape

Good to prevent stains and damages of AGV magnetic tapes in warehouses and factories.

RoHs10 acquisition

Application Example

To protect AGV magnetic tapes

To protect and reinforce floor lines

To protect factory floor indications

Product Number	Thickness (μm)	Size	Color (Gloss type)
AGV Line Protection Tape	162±5	90mm×30m	Clear (glossy)

Easy to stick and hard to peel off! Contamination Resistance!

bBa POP Laminate

Wear resistance, the antibacterial and antifungal effect keeps the beauty.
Keep your original POP clean for a long time.

RoHs10 acquisition

How to paste ↓

Product Number	Thickness (μm)	Size	Color (Gloss type)
POP100	257±5	250mm×337mm	Clear (glossy)

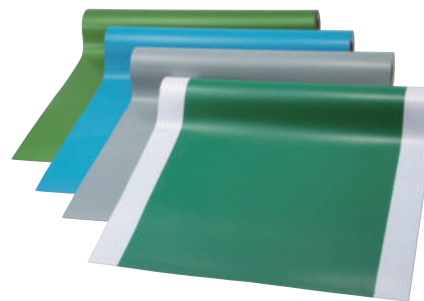

Even less slippage, as well as enhanced safety and durability

bBa Walking Zone Film

Chemical resistance provides reassurance and safety! Non-slip type
Suitable as a protective sheet for walkways in places such as warehouses and factories where enhanced durability and safety are required.

RoHs10 acquisition

Characteristics

The Matrix coating process (airless) is used for the adhesive. Application is easy due to it being airless.

Application Example

Product Number	Thickness (μm)	Size	area	Color (Gloss type)
188 N SM	337±5	1000mm×30m	30㎡	Green/Blue/Gray /Green&White (non-slip)

An extensive option of designs! Choose from among 10 kinds!

bBa Design Sheet

Good for signposting in factories, warehouses, and hospitals.

Order 5 sheets or more per item

Production with original designs is available.

① A-2 DO NOT ENTER

② B-1 SHOES STRICTLY PROHIBITED

③ C-1 FIRE PROHIBITED

④ D-1 STOP

⑤ E-2 STOP!

⑥ F-2 CAUTION OVERHEAD HAZARD

⑦ G-2 WATCH YOUR STEP

⑧ H-1 FORKLIFT TRAFFIC CAUTION

⑨ K-1 CHECK LEFT AND RIGHT

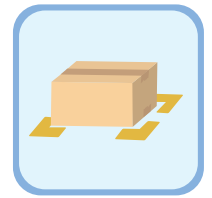

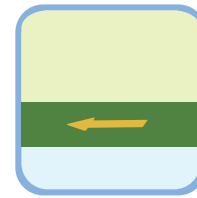

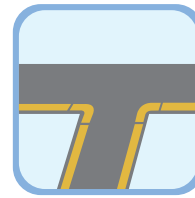

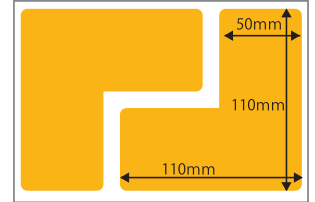

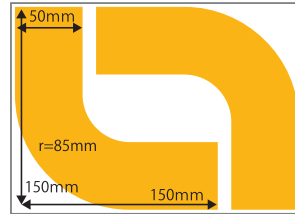

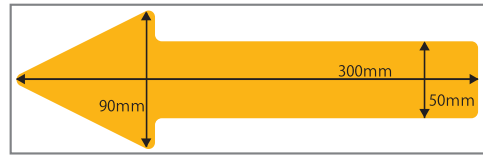

⑩ L-1 EMERGENCY EXIT GUIDANCE

No.	Product Number	Product Name	Size
①	A-2	DO NOT ENTER	H250mm×W300mm
②	B-1	SHOES STRICTLY PROHIBITED	H250mm×W300mm
③	C-1	FIRE PROHIBITED	H250mm×W300mm
④	D-1	STOP	H250mm×W300mm
⑤	E-2	STOP!	H300mm×W250mm
⑥	F-2	CAUTION OVERHEAD HAZARD	H300mm×W250mm
⑦	G-2	WATCH YOUR STEP	H250mm×W300mm
⑧	H-1	FORKLIFT TRAFFIC CAUTION	H250mm×W300mm
⑨	K-1	CHECK LEFT AND RIGHT	H250mm×W300mm
⑩	L-1	EMERGENCY EXIT GUIDANCE	H250mm×W300mm

For various locations such as factories, warehouses, and hospitals

bBa Marking Tape

A product made by modifying the bBa Super Line Tape for marking purposes

Product Name	Quantity	Size	Color (Gloss type)
Arrow Tape	10 sheets (10 pieces)	300mm×90mm	White/Yellow/Blue/Red/Green/Orange *The colors shown here are for your reference. Actual product colors may slightly vary.
Corner Tape	5 sheets (10 pieces)	150mm×150mm	
Positioning Tape	10 sheets (20 pieces)	110mm×110mm	

Lights up during emergencies!

A tape with high luminescence and long afterglow

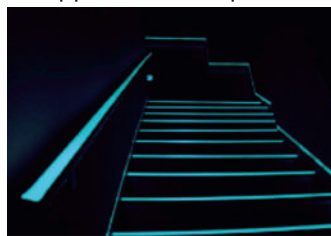

bBa Luminous Tape

A phosphorescent tape that lights up in dark places, at night and during blackout.

This product works great as a guidance indicator during emergencies.

▼Application Example

Product Number	Thickness (μm)	Size	Dimension	Color (Gloss type)
BT2510	460±5	25mm×10m	0.25㎡	Greenish Yellow (glossy) *Turquoise emission in the dark
BT255	460±5	25mm×5m	0.125㎡	
BT251	460±5	25mm×1m	0.025㎡	
BT5010	460±5	50mm×10m	0.5㎡	
BT505	460±5	50mm×5m	0.25㎡	
BT501	460±5	50mm×1m	0.05㎡	

【Phosphorescent luminescence statistics】

bBa Luminous Tape has higher luminescence and longer afterglow than any conventional product, and greatly exceeds the JC values in afterglow duration.

Elapsed Time	2 min	10min	20min	30min	60min	Thickness (mm)
bBa Luminous Tape	1027	286.2	149.6	88.9	37.1	0.46
JIS JC standards	880	210	100	62	30	

(Measurement distance: 350 mm, measurement angle: 3 degrees, unit: mcd/m²)

*The measurement method of luminescence conforms to JISZ9107.

*All data shown here are not applicable to products in use.
